DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Prior Art Figure 1 in view of Koch.

Applicant's Prior Art Figure 1 discloses the claimed invention except for the horizontal protection members being tubular and including plastic end caps or "plastic pads".

Koch discloses a protection device including tubular horizontal protection members 12 with "plastic pads" 16.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to construct the horizontal protection members of Applicant's Prior Art Figure 1 to be tubular with plastic pads thereon as taught by Koch for a lighter weight protection device arrangement.

Response to Arguments

3. Applicant's arguments filed 7/19/05 have been fully considered but they are not persuasive. Applicant's comments concerning the references individually that neither reference meets all of the claimed invention are accurate but fail to address the combination of reference set forth above. On page 5 of the response, the paragraph at the bottom of the page states that the combination of references fail to meet the features of the claimed invention but fails to provide reasons why the combination is not met by the references.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
